EDUCATION

SRM University AP, Amaravati <i>B.Tech in Computer Science and Engineering</i>	Expected 2027 CGPA: 8.77/10
Narayana Junior College, Kurnool <i>Intermediate (MPC)</i>	2023 97.7%
St Anne's High School, Bethamcherla <i>SSC</i>	2021 98.67%

EXPERIENCE

Trinwo Solutions <i>Backend Development Intern</i>	Jun 2025 – Jul 2025 India
- Engineered role-based auth and job-search modules in PHP and MySQL for a secure multi-role job portal. - Refactored relational schema and optimized SQL queries, reducing average query latency by 30%. - Built RESTful API workflows managing client-server communication across all core portal endpoints. - Delivered responsive UI components ensuring consistent cross-device experience on mobile and desktop.	

PROJECTS

AI-Based Smart Traffic Management System Python, OpenCV, Flask, React.js	GitHub
- Deployed YOLOv4-tiny and OpenCV for real-time multi-class vehicle detection across live intersection feeds. - Reduced signal wait time via Genetic Algorithm optimizer, visualized through a React and Flask control dashboard.	
Real Estate Property Management Platform React.js, Node.js, Express.js, MongoDB	GitHub
- Delivered full-stack MERN platform with JWT auth, advanced property filters, and Socket.io real-time messaging. - Engineered REST APIs with MongoDB aggregation pipelines for buyer and agent responsive dashboards.	

SKILLS

Programming Languages	: C, C++, Python, Java, JavaScript
Web & Backend	: React.js, Node.js, Express.js, PHP, HTML, CSS, REST APIs
Databases	: MySQL, MongoDB
AI / ML	: Machine Learning, NLP, OpenCV, YOLOv4
Tools & Platforms	: Git, GitHub, Linux, Shell Scripting
Core CS Concepts	: Data Structures & Algorithms, OOPS, DBMS, OS, Computer Networks

ACHIEVEMENTS & CERTIFICATIONS

Solved 235+ algorithmic problems on LeetCode, focusing on DSA and competitive programming.

Oracle Certified Java Programmer and MongoDB Associate Developer.

Secured AIR 20,468 among 8.5 lakh+ participants in AINCAT 2026 (Naukri Campus).
