Summary

Self-driven and detail-oriented Computer Science undergraduate with strong foundations in C, C++, Python, Data Structures, and Web Development. Proven experience developing web and desktop applications, with a passion for backend systems. Experienced in building server-side applications using PHP and MySQL, and tools like Git and Visual Studio. Committed to delivering clean, modular code and contributing to real-world software development projects.

Education

SRM University AP, Amaravati, India
Bachelor of Technology in Computer Science and Engineering CGPA: **8.79/10**
Expected Graduation: 2027
Relevant Coursework: Data Structures, OOPS, DBMS, Algorithms, Software Engineering

Projects

- | | |
|--|--------|
| Route Optimization Using a Greedy Approach <ul style="list-style-type: none">- Developed a C++ program to optimize travel paths using a greedy algorithm.- Solved real-world logistics problems by minimizing cost and travel time. | GitHub |
| Student Database Management System <ul style="list-style-type: none">- Built a C++ application to manage student records using file handling and OOP principles.- Included robust CRUD operations with search and update functionalities. | GitHub |
| Lost and Found Hub Web Application <ul style="list-style-type: none">- Created a responsive full-stack platform using HTML, CSS, JavaScript, PHP, and MySQL.- Allowed users to submit and retrieve item reports with secure backend storage. | GitHub |
| Smart Exam Surveillance System <ul style="list-style-type: none">- Implemented real-time monitoring system using Python and OpenCV.- Integrated facial recognition and object detection to flag suspicious activity during exams. | GitHub |

Technical Skills

Languages: C, C++, Python, JavaScript
Web Technologies: HTML, CSS, PHP, MySQL
Database: MySQL, DBMS Principles
Tools: Git, Visual Studio Code, VS Community Edition

Achievements

- Ranked in the Top 5% in programming-related coursework at SRM University
- Consistently maintained a GPA above 8.4 across all semesters

Interests

Backend Development
Competitive Programming
Open-source Contributions
Blockchain Technology and Cybersecurity
