EDUCATION

SRM University AP, Amaravati

Expected 2027

B.Tech in Computer Science and Engineering

CGPA: 8.74/10

- Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks, Machine Learning

EXPERIENCE

Trinwo Solutions

Jun 2025 – Jul 2025

Backend Development Intern

India

- Engineered role-based authentication and job-search backend modules using PHP and MySQL for a job portal application.
- Refactored and optimized relational schema and complex SQL queries, reducing average query latency by 30%.
- Designed RESTful backend workflows and integrated APIs to ensure reliable client-server communication.
- Implemented responsive UI components and ensured cross-device compatibility.

PROJECTS

AI Mental Wellness Chatbot | Python, NLP, ML

GitHub

- Implemented sentiment analysis pipeline and ML classifier to predict depression and anxiety levels from user input.
- Designed dynamic conversational state management and personalized recommendation engine.

AI-Based Smart Traffic Management System | Python, OpenCV, Flask, React.js

GitHub

- Developed an AI-driven traffic management system using YOLOv4-tiny and OpenCV for real-time vehicle detection.
- Implemented Genetic Algorithm-based signal optimization with a React and Flask dashboard for smart traffic control.

Real Estate Property Management Platform | React.js, Node.js, Express.js, MongoDB

GitHub

- Built a full-stack real estate platform with authentication, property listings, search filters, and Socket.io messaging.
- Implemented REST APIs, MongoDB integration, and responsive dashboards for buyers and agents.

Emergency Blood Donation Platform | HTML, CSS, JavaScript, JSON Server

GitHub

- Developed a full-stack emergency blood donation platform with role-based donor and receiver modules for real-time request handling and status tracking.
- Designed structured backend workflows and optimized data models for efficient donor search and request processing.

SKILLS

Programming Languages: C, C++, Python, Java, JavaScript

Core Competencies: Data Structures & Algorithms, OOPS, DBMS, Artificial Intelligence, Machine Learning

Web Technologies: PHP, MySQL, HTML, CSS, React.js, Node.js, Express.js.

Tools: Git, GitHub, Linux/Unix, Shell Scripting.

ACHIEVEMENTS & CERTIFICATIONS

Solved 185+ algorithmic problems on LeetCode.

Oracle Certified Java Programmer , MongoDB Associate Developer.

Secured AIR 30,876 among 200,000+ participants in AINCAT 2025 (Naukri Campus).
